0.95

0.95 goes far beyond being simply very good. It is the benchmark for our self-imposed commitment to exceed the technically possible in the creation of perfectly crafted milestones, with the ability to amaze and delight. In this way, we create objects of enduring value that transform our passion for innovative technologies and materials into a tangible experience.

0.95 is an homage to the legendary Leica Noctilux-M 50 mm f/0.95 ASPH. lens and its maximum aperture of 0.95. In available-light photography, it possesses the ability to reveal details that remain hidden to the human eye.

As the world's fastest aspherical lens for 35 mm photography, its extremely shallow depth of field at maximum aperture expands creative horizons in a way previously unknown to the world of photography. Its superb optical performance unites with the highest-quality materials, perfect construction, and utmost precision in a lens of unrivaled quality.

0.95 is an attitude that unites the fine art of precision engineering, quality of materials, and enduring value in exclusive collections that meet the greatest demands. In collaboration with an extraordinary partner, it not only questions established limits, but it goes further: it redefines them. 0.95 is an idea by Leica Camera AG.

Book „Wanderlust“

Book „Leica myself“

Book „Leica and Zagato“

Book „Ninety-nine years“

Book „Flash“

NEW! BOOK „WANDERLUST“

The best photo books tear us away from our familiar surroundings and send us on a journey to remote areas of the world. This is particularly the case of this impressive photo book, a retrospective of Thomas Hoepker's very diverse body of work. Covering 60 years, Wanderlust is a spectacular summary of the work by this photo journalist and former president of the Magnum Photo Agency. Hoepker's notable success as a chronicler of world events is reflected in an exemplary archive of images: events of global significance are dealt with with the same aplomb as the striking reality of daily life. This book turns the reader into an eye witness of decisive chapters of world history, such as the cold war, the fall of the Berlin Wall, and September 11th. It is in part because of Hoepker's images that these events have become branded in our collective memory.

NEW! BOOK „LEICA AND ZAGATO: USA COLLECTIBLES“

This is the first book of a fascinating Trilogy conceived by Zagato (1919) and Leica Camera AG (1914). These Trilogy hasn't been designed, since the beginning, as pure motoring books. They aim to create a fantastic trip through three Continents and their most characteristic aspects coupling, each time, 33 Zagato collectibles models of its entire story with the technology and massive quality of Leica Camera AG's products. In the first stage the multiform landscapes of the United States play the role of the protagonist while Zagato cars are simply a further suggestion but, thanks to Leica, they get more and more importance.

BOOK „LEICA MYSELF“

Self-Portraits: they are their own unique photographic phenomenon. Immortalising oneself with a camera in the hand. Old, young, big, small, rich or poor. We're all the same in front of a mirror. Actually only some are the same – the Leica owners. Which model doesn't matter. This book pays homage to this cult of person with more than 250 self-portraits from all over the world. Bizarre, irreverent, narcissistic, insane, iconographic, but always passionate. "Leica myself" – the immortalization of the Leica logo. Language: English / German

BOOK „NINETY-NINE YEARS“

The book is completely different from what you might have expected. No historical essays, no technical descriptions, no operating instructions. Instead it is a book presenting the emotional highlights of 99 years of fascination with the photographer's tool that was ingeniously modified in 1914 by Oskar Barnack in a way that changed everything: The view of subjects photographed, as well as the photography in general. The fascinating story of the Barnack 35 mm camera has long been told. Yet its repetition can't make it any more detailed or fascinating – all this covered in breath-taking design. 300 pages with 700 pictures and illustrations | Format 32,6 x 25,2 x 4,2 cm Hard cover with refined slipcase | Languages: English | German | Portuguese | ISBN: 978-3-942518-33-8 (EN) | ISBN: 978-3-942518-34-5 (PT)

NEW! BOOK „FLASH“

With his new title, Flash, Lenny Kravitz makes his mark in a new arena of the creative arts. During his childhood, Kravitz was enthralled by cameras, playing with them like toys instead of taking photographs. In recent years photographer friends taught him the fundamentals of photography by using a Leica. Intrigued by the possibilities, Kravitz began creating his own works, all of which were marked by close attention to the nuances and effects created by light. As he himself had been endlessly photographed by photographers, paparazzi, and fans, his perspective on aesthetics was decidedly unique. In Flash, he captures the essence of what it's like to be a rock star who's constantly in the public eye. The result: an intense exploration of the photographer and his subject.
